Of course, it is to laugh! That's why a whole lot of people who went to the Hippodrome last night have already made up their mind that they would go again, and the chances are that they'll have to buy seats in advance to make sure. Personally we thought the show a little raw—that is it was kind of horse-meaty like. But what does one care when a whole lot of fat men, and others with bald heads get in and help a whole lot in putting the show over. Moore's flock of wild geese sure are some ducks. Honestly I feel like standing aside. Just reporting the verdict of the fellows who saw the show last night. Borrowing an expression from Danny Lund "Hot Dog." It sure is some show.

Our good old Nelson favorites, "The Drowsy" Mr. and Mrs. Sidney Drew appeared in person at the Lincoln Theatre, Brooklyn, recently when their one-act comedy "Handy Henry," was shown. They made a present of their share of the receipts to two Brooklyn funds from which milk and eggs are supplied to crippled children and luncheons to school children. Mr. Drew made a short talk.

The story of "The Ransom," which is at the Nelson Theatre today, illustrates the power of mother love when devoted to thwarting the efforts of a man to wreck her daughter's life in the same way in which he wrecked her own. Julia Dean, the star of the piece, plays the part of the mother. It is a tale of theatrical life, in which love, intrigue, vice and crime play prominent parts, all the threads of the thrilling narrative leading up to the price the mother pays as a ransom for her daughter's safety and happiness. That the sacrifice was not unavailing, and that the daughter escaped the perils which were gradually encompassing her, makes the conclusion as happy as it is logical, and the ending of the picture leaves a thrill which is a mixture of joy and sorrow—joy that the dangers which threatened the lovers have been brushed aside, and sorrow that the mother should have made the great sacrifice without the daughter knowing the relationship which existed between herself and the woman to whom she owed her rescue from the machinations of those who sought to encompass her ruin.

THE DEACON.

It would be impossible to tell off hand which of George W. Perkins and Henry A. Wise Wood has been the greater nuisance during the past two years. Each has some points which at times make it appear that he is the most pestiferous of the pair, but an examination of the score probably would show that Wood has been the more free with advice regarding the way the government at Washington should be run and more offensive in the way in which he handed out his entirely gratuitous suggestions.

We have suspected for some time that Henry A., etc., was devoting entirely too much attention to the business that the public has employed other people to conduct for his own good, and this week the suspicion was confirmed. Henry, etc., makes his living—and apparently it is a very good living—selling supplies to newspapers and printers in general. One of the things he sells is dry flongs, or matrices, which are used in stereotyping. This newspaper, in common with many others, keeps a supply of these mats on hand for use in emergencies. An emergency developed in this plant late last week and it became necessary to replenish the supply of dry mats so a telegram was sent to the Wood Flong company Saturday morning instructing them to express 24 of the things. On the same day the general manager of the Wood company dictated a letter advising us that 25 mats was the smallest lot they sold and asking to be advised whether we wanted to plunge to that extent. The letter got here Monday. We wired that we would take a chance on the odd one, but the mats are not here yet. In the mean time we have discovered a way to get along without them.

Henry A., etc., before he undertook to run the government, including the army and the navy, had some reputation for being a print shop efficiency expert. He ought to turn a little of his talent in that direction into his own shop and let the government take care of itself for a while.

Unnecessary.

I often wish I had the nerve of my friend Jimson.

The other night at a Christmas party he deliberately walked up to the prettiest girl in the room and kissed her.

"How dare you!" she cried, blushing furiously. "I am not under the mistletoe."

"That's all right," responded Jimson. "A girl with a face like yours doesn't need any mistletoe."

And then he kissed her again.—New York World.

Fred Welsh has been barred by the Wisconsin boxing commission. That ought to be good news for Wisconsin fans.

Goodbye Wrinkles!
Bad Complexions, you must go!

NOUVELLE BEAUTE POUR
TOUTES LES DAMES

Remarkable Discovery of Skin Osmosis to make wrinkled, hollow-cheeked, aged looking women astonishingly beautiful, youthful and charming.

FRANCE'S GREAT PRIZE BEAUTY TELLS—

How you can almost immediately suppress the appearance of smaller wrinkles and marks of age and make yourself look from 5 to 15 years younger in 30 days' time. How to banish every complexion blemish in three nights in many instances.

A thousand times I have heard rich women say: "Oh! youth is so wonderful and lovely. I would give everything I possess for youth and beauty again!" No woman with the slightest spark of pride or ambition in her wants to be laid on the shelf, aged, careworn, wrinkled and forgotten so that men wish to avoid her at every dance and dinner party. And women themselves would like to invite some one who looks younger to brighten up the occasion! Yet there is no longer any reason why the average woman need look so old and plain even if she is old.

Since the remarkable discovery of skin osmosis almost any woman can obtain most astonishing new beauty and a most surprisingly youthful appearance even though she is 40 or 50 or more years of age. The Countess de Chavanne who at 70 years of age, possesses a marvelously soft, smooth, velvet-like skin and an almost girl-like complexion without a wrinkle in sight, told the frater personally in Paris that she owed it all to the marvelous discovery of skin osmosis. With this marvelous discovery every complexion blemish can be banished in three nights in many instances and you can awaken in the morning with a beautiful, rose-colored complexion fresh as a daisy.

I have known dozens of hollow-cheeked, wrinkled, aged-looking women, who had given up all hope of ever looking beautiful and youthful again, to "come back" and again become most beautiful, youthful and fascinating in from two to three weeks' time by this wonderful simple method.

No matter what your age or what you have tried unsuccessfully, skin osmosis will positively bring you new beauty and youth. Merely wash your face in warm water at night and rub it in a teaspoonful or two of any good rose-scented cream, which you can obtain from your druggist. In the morning wash the face with cold water and rub in more cream.

In three weeks or less watch the magic transformation. See how the old, hardened, coarse, rough skin turns into new, fresh, soft, youthful looking skin almost before your very eyes, all due to simple skin osmosis produced solely by warm water and roseated cream. But be sure to use only pure roseated cream, as it is an entirely different thing from ordinary face creams and must not be confounded with them. I personally prefer Creme Tokalon (Roseated) but any good brand will do. If you have wrinkles get a box of Japanese Ice Pencils and use them in connection with the cream and you can get quick action on the deepest wrinkles, no matter of how long standing, in one night's time and awaken on the morrow to witness most astonishing results. Also the use of a little Santonox (sold by druggists) on the face each morning will almost immediately suppress the appearance of all smaller wrinkles and marks of age and make you look almost years younger. It gives an indescribably beautiful effect to the neck and arms for evening dress.

I personally guarantee success in every case, in any of my newspaper articles relating to beauty, or I will refund the amount paid for any products I recommend provided you take your dealer's receipt at the time you make your purchase. My American address is Simone Mareix, 20 West 22nd Street, New York.

NOTE—The manufacturers of Creme Tokalon, Roseated, have such unbounded confidence in their particular brand that they offer to forfeit \$200 to any charitable institution if it can be shown that it will not banish every complexion blemish and give most astonishing new beauty to wrinkled, careworn, aged women in three days' time in many instances. It can be obtained absolutely fresh and guaranteed pure from South Side Pharmacy or most any good druggist or department store in this city.
